

PENALTY PAID TO REVENUE OFFICER

Used Automobiles For Taxi Service Without Taking Out The Necessary License.

PLEAD IGNORANCE OF LAW

Deputy Revenue Collector Warns Owners Against Hiring Automobiles—Received Complaints.

Ten Seymour men were notified today to appear before G. R. Kemper, a deputy internal revenue collector, to explain why they had not procured government licenses before using their automobiles for taxi or passenger service. The federal law requires that owners of automobiles used for taxi service shall pay a license fee of \$10 per year on machines of less than seven passenger capacity and \$20 per annum for automobiles of greater capacity. The law provides a penalty of twenty-five percent, in addition if the license is not procured at the beginning of the year. Those called before the revenue collector each paid \$12.50 for the license and penalty.

The revenue officer was sent here from the revenue office at Indianapolis after several complaints had been registered there about persons operating taxis in this city without procuring a government license in accordance with the tax law which became effective June 1, 1913. Persons about whom complaints had been made were notified by mail that the deputy would be here today and they were ordered to appear before him. Only three failed to comply with the order and it is Mr. Kemper's opinion that they will come in before tonight. Providing they fail to do so the matter will be turned over to the United States marshal's office and it is possible that the persons will be taken before Judge Anderson in Federal court to answer to the charges against them.

The revenue collector stated today that in the majority of local cases the law had been violated due to ignorance on the part of the owners in not knowing that it was necessary to have a license to rent their cars. Some of the men who paid had only on a few occasions accepted money for driving persons to different destinations and then only charged prices that covered the expense for gasoline etc. However, it is pointed out that the law makes no allowance for persons not regularly engaged in the taxi business and any person who accepts payment for use of their automobile without having a license is violating the law and is subject to prosecution.

Several local automobile owners have been renting their cars for funerals alone in order to accommodate the local undertakers as it is a hard matter to find enough machines for such occasions. The revenue collector points out that the law makes no exception for hiring cars for that purpose and those doing so are also subject to pay a penalty.

CITY PREPARED TO FIGHT TELEPHONE RATE BOOST

Objections to Petition of Local Company to Be Presented at Hearing September 26.

The special committee of the city council which was named to represent the subscribers of the Seymour Mutual Telephone Company when the petition of the company is heard by the public service commission on September 26, has completed arrangement for the presentation of their arguments. The committee will resist the petition of the company and will seek to have the former rates retained. Valuable evidence pertaining to the service rendered is being gathered by the committee, it is stated. The council committee feels confident that the commission will not grant the petition of the company and is prepared to wage a strong defense when the case comes before the commission.

FIRE LOSS HEAVY IN UNITED STATES

Two Thirds is Preventable Says State Fire Marshal in Address Before Rotary Club.

FIRE PREVENTION THE REMEDY

Seymour Per Capita Loss One of the Lowest in The State—Fire Department Complimented.

The greatest loss in the world results from sickness and death. The next greatest loss is from fire, declared H. H. Friedley, state fire marshal, at the meeting of the Rotary Club Tuesday evening. He said the direct loss by fire in the United States annually amounts to \$300,000,000 to which should be added the cost of maintaining fire departments and equipment. This will bring the total to over \$700,000,000 each year. The regret about it is that two-thirds of this loss is preventable. If citizens would see that defective flues are repaired or rebuilt, that combustible materials in basements and attics are kept in proper shape a large per cent. of the fires would never occur. Mr. Friedley complimented the Seymour fire department and gave statistics covering six years of Seymour's fire records showing the number of fires, the property loss, and the per capita cost to Seymour citizens each year.

	Number Fires	Fire Loss	Per Capita
1913	8	\$ 3,922	.62
1914	16	2,419	.38
1915	16	4,883	.77
1916	23	5,425	.86
1917	26	12,536	\$1.96
1918	24	5,153	.81
Six yrs. Avg.	19	5,723	.90

The fire marshal, Mr. Friedley, complimented Seymour on the low per capita loss compared with neighboring cities. During 1918 the fire loss per capita in Franklin was \$2.50; Greensburg \$2.25; Vincennes \$4.74; Washington \$3.46; Richmond \$1.35; Peru \$1.58.

In addition to the work of putting out fires after they have started the fire chief, said Mr. Friedley should be a fire inspector and make it his business to visit every building in Seymour and make recommendations that would help to prevent fires. If all the cities in Indiana would do so the annual fire loss of \$600,000 in the state could be reduced one-half very soon. In Indiana last year there were 955 fires from defective flues resulting in a loss of \$489,564 on buildings and \$143,716 on contents.

The citizens of every city should insist that a better grade of buildings be erected and that fire departments be conducted on a more efficient basis through fire inspection.

At the close of Mr. Friedley's address a vote of thanks was rendered him and a committee consisting of W. L. Clark, Claude Carter and Harry M. Miller was appointed to take up with the fire chief the matter of improvements, which would be possible in fire prevention in Seymour.

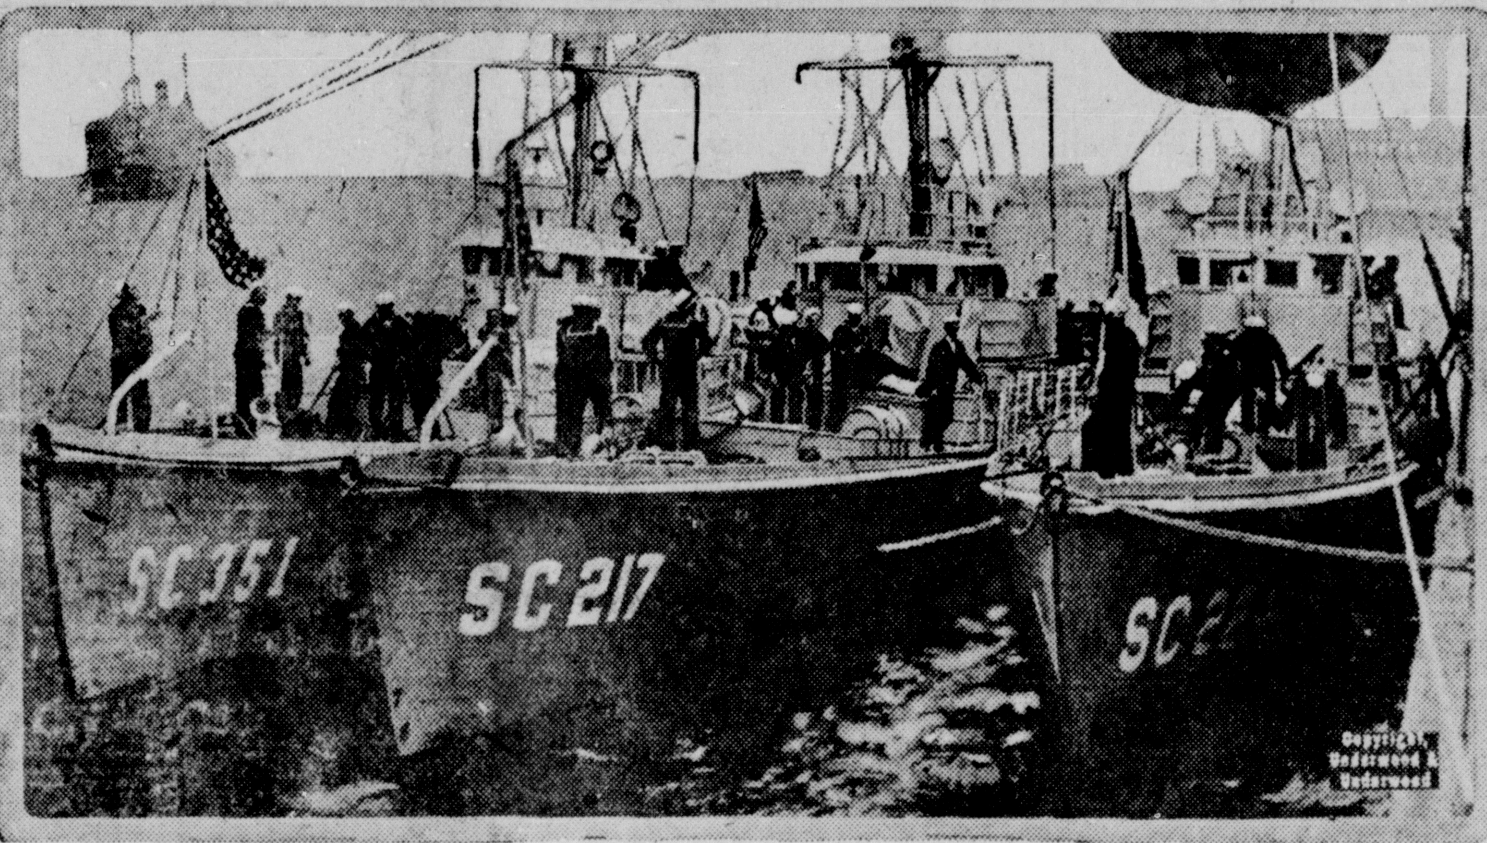

W. L. Johnson reported the situation relative to installing the new street lighting system and the Rotary Club instructed the secretary to send a message to Fred A. Simms, chairman of the state tax board, urging that prompt action be taken to permit the issuance of bonds for installing the system.

W. L. Clark and George F. Kaman made impromptu addresses on "Why I Am What I Am." Arrangements were made for attending the Dyer luncheon and state Rotary meeting at Indianapolis next Tuesday. Announcements were also made about the Rotary clam bake which is to be held in Brown county on October 7. The Franklin Bedford and Bloomington Rotary Clubs will join the Seymour Club in this outing.

STREET WORK IS TO BE POSTPONED

Proposed Improvements With Concrete Will Not Be Awarded Until Next Spring.

LABOR SHORTAGE CONSIDERED

Big Demand for Men and Teams at This Time is Due to Contracts Already in Progress.

Plans of the city council to improve Third street between Ewing and Walnut streets with concrete this fall have been abandoned because of the large amount of road improvement work now in progress in this immediate vicinity. It is pointed out that the contracts which are now being completed and which will be started before cold weather result in an unusually heavy demand for labor that is familiar with road building and that it would be an inopportune time for the council to award further contracts which would only result in still greater difficulty in securing sufficient labor to complete the work under way. The council had intended to award the contract for the improvement of Third street this fall with the expectation that the work would be completed before winter weather, but after due deliberation had been given the matter the members agreed that it would be better to postpone the city work until spring.

In connection with the improvement of Third street which, it is said, will be ordered early next year, it is known that the council intends to order the improvement of practically

SAYS WILSON PLANS NEW FORM OF GOVERNMENT

Senator Johnson Speaks to Audience of 8,000 at Sioux City, S. D.—Denounces Covenant.

By United Press
Sioux Falls, S. D., September 17—President Wilson intends to place the United States under a substantially new form of government by the league of nations, Senator Hiram Johnson declared here last night. An audience of 8,000, although not very demonstrative at the start of Johnson's address, shouted and cheered his denunciation of the covenant which he termed Great Britain's territorial grabs and of the "Shantung infamy." Johnson was forced to hurry his speech in order to catch a train for Lincoln, Neb., where he speaks tonight. After the Lincoln speech he will again take up Wilson's trail at the Twin Cities.

COMMISSION ASKS TO ACT QUICKLY

Rotary Club Sends Message to Fred Simms Urging Him to Rush the Post Lighting Case.

ANXIOUSLY AWAIT DECISION

President of Chamber of Commerce Talks With Member of Commission Over Telephone.

The Seymour Chamber of Commerce and the Rotary Club have made requests to the Public Service Commission asking them to render a decision in the matter of raising funds to install the new lighting system in Seymour.

A message was sent by the Rotary Club to Fred Simms, a member of the commission, this morning soliciting his assistance in having the matter decided as early as possible. Mr. Simms was informed in the message that the improvement was badly needed and his assistance was solicited in helping to make the decision favorable to the city.

John Shields, president of the Seymour Chamber of Commerce called Mr. Simms over long distance telephone today making practically the same requests that were made by the Rotary club. Mr. Simms was informed that the move was endorsed

COUNCIL TO HOLD SPECIAL SESSION

Proposed General Sewerage System Scheduled to be Presented by Special Committee.

UNDERTAKING IS IMPORTANT

Committees of Council and Chamber of Commerce Discussing Best Plan to be Followed.

The question of constructing a general sewerage system which will provide adequate relief for all parts of the city is expected to be presented before the members of the city council at a special meeting tonight. Councilman Ireland is chairman of a committee appointed by Mayor Burkart to confer with a special committee representing the chamber of commerce relative to this matter. The other members of the council committee are Wm. Buse and C. R. Emery.

The representatives of the council have had a preliminary conference with the chamber of commerce committee and Council Ireland is expected to give a report of this conference. Those who are familiar with the sewerage project realize that the undertaking is one of the largest that has been attempted by the city in recent years and because of the large amount of money that is involved the plans and specifications must be accurate and the council must be assured that the pro-

By United Press

Sinton, Tex., September 17.—More than 250 persons are dead from Sunday's gulf storm and tidal wave, Mayor Sparks, of Sinton, estimated today.

The mayor's figures included the dead at Corpus Christi, the north shore of Mueces Bay and Arkansas pass and vicinities.

Ten bodies were held at Sinton today. Four have been identified. One soldier whose body presumably was washed from Corpus Christi was among the dead.

A relief train from Houston reached Sinton at 9 o'clock this morning. It will proceed to Corpus Christi after part of the workers detain here to go to the north shore of Mueces Bay. The train carried about one hundred soldiers.

Soldiers are assisting the relief workers both in Sinton and Corpus Christi. Little vandalism or looting has been reported, Mayor Sparks said.

Former Mayor Miller of Corpus Christi, chairman of the relief committee, appealed for financial aid for the five counties flooded by Sunday's storm, through the United Press today.

"Any statement of the total dead at this time is only an estimate," Miller said. He believed the dead in Corpus Christi and vicinity not more than two hundred said it might run higher.

Col. Horter of Fort Sam Houston, was in complete control today with about 350 soldiers in his command.

Corpus Christi, Tex., September 17.—The death list from Sunday's hurricane and tidal wave stood at 197, according to reports today. Bodies of twenty-seven additional dead are reported held at two ranch houses, but this report has not been confirmed. Property damage is estimated at from \$10,000,000 to \$15,000,000 in the five devastated counties.

The patrons of the Seymour National Bank are much pleased with the report of its condition which was published Tuesday. The statement showed that its resources, totaling \$900,356.79, an increase of approximately \$112,000, are the largest in the history of the institution. The substantial increase in deposits shows that the bank is in a healthy, prosperous condition. Its steady growth is due to the implicit faith

the public places in the management which adheres to the safe, sound business policies which protect the patrons and depositors. A strong bank of the character of the Seymour National is a valuable asset to the community.

That the First National Bank is continuing its steady strides forward, is revealed by its statement of condition which was published Tuesday. The total resources of the bank are given as \$1,380,199.81, an increase of about \$180,000 since the last statement was issued. This bank has been in the "million-dollar" class for several years. The management of the institution follows the conservative yet aggressive methods of business which account for its steady growth and advancement. It is the oldest bank in Jackson county and its aim has always been to best serve the public in a manner that is consistent with safe banking rules.

CLEOPATRA DRAWS LARGE CROWDS TO PRINCESS

Fox Production Featuring Theda Bara, One of the Best Ever Shown in Seymour.

The four performances at the Princess Theatre Tuesday featuring Theda Bara in "Cleopatra" were largely attended and the matinee shows this afternoon drew large crowds. The production will be shown for the last time at two performances tonight.

The picture is one of the best ever shown in this city. The play is taken from history and is pleasing to all. Theda Bara, as Cleopatra, adds to the superiority of the production which is one of the most elaborate being shown on the screen in the theatres throughout the country today.

BEWARE OF EXCLUSIVE DESIGNS IN BOOTS

One of the best pictures in which Constance Talmadge has ever been seen is her latest Select Picture, "Mrs. Leffingwell's Boots," which will be seen at the Majestic Theatre tonight and in which she is presented by Lewis J. Selznick.

"Mrs. Leffingwell's Boots" is a story of a young woman who loves pretty clothes, and much against her husband's wishes she buys a pair of expensive embroidered slippers to wear to a fashionable dance. Unknown to both, a replica of the pair is in existence, and were purchased by Walter Huntley to give to his fiancée, Mabel Brown. Mabel becomes angry at Huntley, however, and breaks off the engagement, so Huntley gives the slippers to his maid. Come and see what happened.

Safe Milk

From Sanitary Dairies—From Inspected Cows

You know you get a safe milk when you get Van Camp's.

The dairies are sanitary, the cows are inspected.

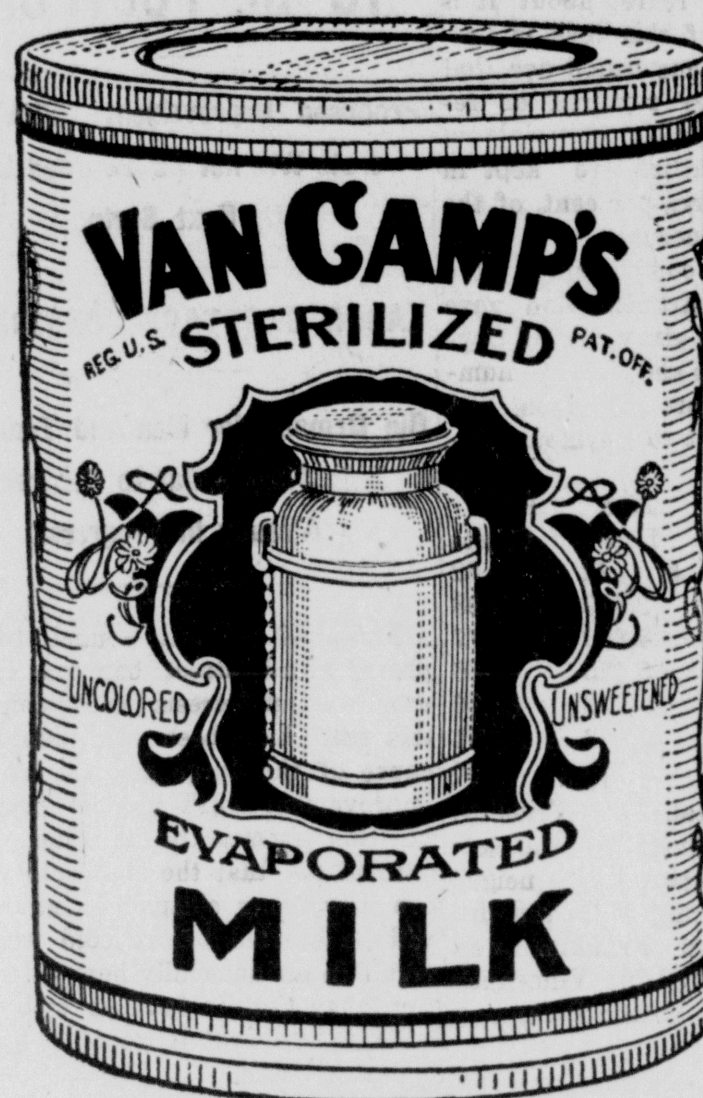

Then after evaporation—after the cans are sealed—the milk is sterilized.

The dangers which lurk in ordinary milk never exist in Van Camp's.

Extra-Rich Milk

In Van Camp's you get milk from healthy, high-bred cows. Every milking is tested for the butter-fat.

Then we reduce it to double richness by taking out more than one-half of the water.

"The Cow in the Pantry"

Van Camp's Milk comes to you as a cream. Dilute it one-half and you have rich milk. For cooking you have a whole milk, where you usually use skimmed milk.

Economical Milk

You get in Van Camp's economical milk.

There is no waste. It comes in small cans and large cans. Open little or much as you wish.

Do You Remember Gasless Sundays?

NO better way could be found to illustrate and emphasize the usefulness of the Standard Oil Company (Indiana), and the broad and varied service it renders, than to take five minutes and imagine a gasless year.

Think how our lives instead of being full and complete through association with our fellow men would be circumscribed by the barriers set up by shank's mare.

Think how manufacturing would be hampered. How industry generally would be crippled. How crops would go to waste through inability to harvest, and the leaps and bounds that the cost of living would take.

Instead of the natural expansion of business that comes from service and usefulness, the whole structure of business would be hampered through sheer inability to render to society that service which society has been accustomed to demand.

The Standard Oil Company (Indiana) is a public servant owned by 4649 stockholders, no one of whom holds as much as 10 percent of the stock.

The Standard Oil Company (Indiana) is doing a big job in a big way and has grown great simply by reaping the rewards that come from rendering the service demanded by business and society in a manner satisfactory and beneficial to the world at large.

STREET WORK IS TO BE POSTPONED

(Continued from first page)

all the east and west streets connecting Walnut and Chestnut streets which are already paved, and probably some of the cross streets between Chestnut and Ewing streets may also be included in the improvement resolution.

A number of residents living on the several cross streets between Ewing and Walnut have asked the council to take action for the improvement of these streets but as such work would result in considerable expense to the city action on the requests has been temporarily postponed. However, some of the residents insist that the work be done next year and the council is now arranging to take care of the expense of the intersections, if any, which will fall upon the city.

With the contracts on High street and South Walnut street now in progress there is a good demand for labor to complete this work. The problem of hauling gravel for these contracts is also one that has given the contractors some concern and a large number of the teamsters are already employed so that the city might have difficulty in securing sufficient help if further contracts were undertaken at this time. The Davis Construction Company, which has the contract for the Dudleytown road is hauling some of its gravel by motor truck, especially equipped machines having been sent here for that purpose. The gravel for the Dudleytown road is being hauled from White River while the Jenkins Construction Company, which has the contract for the High street road, is shipping gravel here from the Ohio River. It is then hauled from the cars to the grounds by local teamsters.

When additional streets are im-

proved the council will have to make different arrangements to sweep or flush the streets as complaint has come from the system used this year. People living along the concrete streets, have repeatedly asked that the flusher be used again but the council has not seen fit to comply with the requests, presumably on account of the additional expense. However, property owners who are charged with the improvement of the streets, feel that it is the duty of the city to keep them in a more sanitary condition.

Local men behind the move are anxiously awaiting the decision by the public service commission. It is apparent that a large majority of the citizens of Seymour want the new lighting system installed in the business section which will add much to

STRIKING CHANGES MAY BE SHOWN BY CENSUS REPORT

Shifting of Population Because of War Will Be Revealed by Tabulations.

By United Press

Washington, Sept. 17—Striking changes in the growth and character of the population of the United States are expected to be shown by the 1920 census, preparations for which are under way.

The shifting of population because of the war has upset the calculations of census experts, who since 1917 have considered it useless to attempt to estimate population of any other units than states. Before that, it was possible to predict with a fair degree of accuracy the number of persons in any given locality.

The "center of population," it is believed, has stopped its westward movement, which was continuous from 1790 to 1910, when it was located in Bloomington, Ind. This is because industrial cities in the central east, such as Cleveland and Detroit, have been growing at a greatly increased rate during recent years, as have manufacturing centers further east. Formerly the Rocky Mountain and Pacific Coast states increased in population with twice the rapidity of eastern and central states.

During this year, however, certain modifications of the unusual situation may be made. The opening of reclamation projects in the west, the resumption of immigration, and other causes, it is thought, will change the abnormal distribution. There will also be a tendency to return to normal now that the war is ended.

Pronounced changes are expected also in the "constitution of the population"—the ratio of males to females, the proportions of native and foreign stock, and the age distribution. When a city experiences a rapid growth due to industrial and commercial activity, the gain in population is largely made up of persons in the young and early middle ages. Among these persons there will be more men than women. For example, in Oklahoma City, where the population grew nearly 500 percent between 1900 and 1910, the ratio of males to females in the latter year was 126 to 100, and 62 percent of the population was between 15 and 45.

The coming census is also expected to show a continuation of the movement from the country to the city, which has been going on for many decades. A further decrease in the proportion of negro population is expected. In 1900 negroes numbered 11.6 percent and in 1910 10.7 percent.

It is expected that the percentage of foreign-born will show a marked decline, due to the discontinuation of immigration. In recent years the native-born population did not increase as rapidly as the foreign-born. Fewer persons will be found, it is predicted, who are unable to speak English. In 1910 this number was 22.8 percent of the population.

The law requires the Census Bureau to make an actual count every 10 years, and an estimate for cities and states every year by arithmetical progression. Since 1917, however, the bureau has not estimated cities. A calculation of state population was made recently, however. Hehe it is:

SAYS FIRE DEPARTMENT DOORS SHOULD BE WIDER

State Fire Marshal Inspects Fire Equipment and Suggests Several Improvements.

H. H. Friedley, state fire marshal, who was the guest of the Seymour Rotary Club Tuesday evening, visited the fire department while in the city. The fire marshal made several suggestions for the improvement of conditions at the local fire department including the widening of the doors leading to Chestnut street.

Mr. Friedley suggested that the stairway leading to the second floor of the building from Chestnut street be removed to the rear of the fire house which would make it possible to widen the doors. The fire marshal also inspected some of the equipment and recommended that several additions be made to make it complete.

The state fire marshal was not at all pleased with some of the conditions at the fire department. He stated that the municipal car, which is kept at the fire house, should not be left standing in the way of any of the fire trucks or other equipment.

There will be a reception (nethered the visitors tonight, which will feature the entire meeting so far as elaborate preparations are concerned. The matter of lining up the A. M. E. churches of the state with the Interchurch World Movement will be taken up.

Coal Dealers Meet.
By United Press

Indianapolis, Sept. 17—John E. Lloyd of Philadelphia, president of the National Retail Coal Merchants association, was to arrive here today to attend the "emergency session" of the Indiana coal men's organization, which opened at the Hotel Severin. Lloyd will make the only formal address of the meeting. He has been spending most of his time in Washington keeping in touch with the coal situation.

Perry Collins returned Tuesday evening from Jeffersonville where he visited his daughters, Mrs. Guy Kershner and Mrs. James Stanfield.

A SEYMOUR INTERVIEW

Mrs. Stewart Tells Her Experience.

The following brief account of an interview with a Seymour woman three years ago, and its sequel, will be read with keen interest by every citizen.

Mrs. Bruce H. Stewart, 41 Booth St., Seymour, says: "I have used Doan's Kidney Pills with benefit, and I gladly recommend them. I had dull, nagging pains across the small of my back and at times I could hardly straighten up. I tired easily, had dizzy headaches, and the action of my kidneys annoyed me, being irregular. I used Doan's Kidney Pills, which I got at Loertz's Drug Store, and they relieved the backaches and other symptoms of kidney trouble." (The above statement was given Dec. 14, 1915.)

On July 22, 1919 Mrs. Stewart said: "I have the same good opinion of Doan's Kidney Pills now as I had when I endorsed them several years ago. They have never failed to do all that is claimed for them." 60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

CHARLES MARLEY INJURED

Finger Badly Mashed While at Work on Bedford B. & O. Branch.

Charles Marley, of Seymour, brakeman on the Bedford branch run of

the B. & O. S-W., met with a painful accident while in line of duty at the Rivervale yards this morning.

Marley had the little finger of the left hand caught in a coupler and the finger was badly mashed to the second joint. On arriving here the com-

pany's surgeon dressed the injury that was found to be a very painful one.—Bedford Mail.

Mrs. James Snow, of Aurora spent Tuesday in this city with her sister, Mrs. Joseph Hulse.

Mr. and Mrs. B. A. Barnett of Indianapolis, have been the guests of Mrs. C. M. Ingram, returned home Tuesday afternoon by motor.

Mrs. Simpson Wells left today for residence in Bedford.

The Man of The Hour.....

You know him,—at least you have heard about him and you will hear more of him.

He's the sort of fellow who as a young man laid out his scheme of life and followed it through.

During the war he put his money into Liberty bonds instead of squandering it with so-called "good fellows."

He saved his money and is a national asset not a public liability. He is a saver of money, of vitality, of self respect.

He has faith in himself and in his country. He banks on the future. So he knows he must bank in the present.

He saves what he can each week. He saves regularly and watches it grow. He cannot help succeeding because he has the habit of saving systematically.

His savings placed in our savings department bring him 3 per cent. interest. His regular checking account has careful attention at our bank. His valuable papers are absolutely safe in our fireproof, burglar-proof vault.

Let us talk over with you our facilities for handling your banking business as well as his.

Jackson County Loan and Trust Co.

TOTAL RESOURCES SET NEW HIGH MARK

Prosperous Condition of The City and Vicinity Reflected by Statements of Local Banks.

DEPOSITS UNUSUALLY LARGE

Resources of the Three Financial Institutions Are \$3,363,398.13, According to Reports.

The prosperous condition of Seymour and the vicinity is reflected by the statements which have just been issued by the three financial institutions in this city, showing a total increase in resources of approximately \$380,000 since the last statements were called for by the comptroller of the currency. All of the banks are in a sound, healthy condition and their reports show the biggest deposits in the history of the city. The total resources of the three banks here are shown to be \$3,363,398.13. This is by far the largest total resources that have ever been reported by the local financial institutions.

The First National Bank, which is the oldest financial institution in Jackson county, has resources of \$1,380,190.81, according to its report. This is an increase of approximately \$180,000 since its last report was issued.

The Jackson County Loan and Trust Company, by its latest report, takes its place among the "million dollar banks" for the first time in its existence. The resources of this bank are reported as \$1,082,850.53, representing an increase of approximately \$86,000 since its last statement.

The Seymour National Bank has resources of \$900,356.79, according to its last statement. This is an increase of about \$112,000. Like the other banks in the city the resources of the Seymour National as shown in its last report are the largest in its history.

The splendid reports of the three institutions are most gratifying in that they bespeak the general prosperous condition existing in this city. The amount of money on deposit in the three banks is not only larger than ever before but the records of the institutions show that the number of depositors also exceeds all former figures. This condition means that the people of Seymour and the vicinity are not only prospering but they are saving and safeguarding the increased amount of money which is coming to them.

The three banks in Seymour are conducted along progressive lines of business, yet the officers and directors of the institutions recognize the value of safe and conservative banking rules. This method of business which is exercised by the local institutions gives to the people of the city and the vicinity the knowledge and confidence that their money which has been placed in these banks for safekeeping is being carefully guarded and protected. The faith and confidence of the public in the three institutions accounts in a large measure for the unusual forward strides which are shown by the current reports.

BORAH RETURNS TO WASHINGTON

Declares Middle West is Aflame With Opposition to the League of Nation's Covenant.

CALLED BACK BY LODGE

Idaho Senator to Conduct Offensive

Against Unqualified Acceptance of Treaty.

By United Press
Washington, September 17—The middle west is aflame with opposition to the league of nations covenant in its present form, Senator Borah, of

Idaho, declared today on his return to Washington.

"The demonstration of Americanism which the middle west is giving," said Borah, "is filling the advocates of unqualified ratification with fear. That is why they are attempting to rush the treaty through the senate. They are afraid the tide that is sweeping the country."

Borah returned at the urgent call of Senator Lodge because treaty advocates are seeking to force the opposition to act on treaty amendments without further debate. Borah said that Senator Johnson will be allowed to continue his speaking tour for the remainder of the present week, at least.

Borah is relied on by Lodge and other republican leaders to take the offensive at once for amendments. The treaty will not be considered today or tomorrow because of the Pershing celebration. On Friday Senator Reed, Missouri, will discuss it.

HOUSTON.

Farmers are beginning to cut corn. Fred Hise, who works at Mitchell, visited his parents here Saturday night.

Mrs. Bessie Daniel has sold her land lying northwest of town, 320 acres, for \$3,200.00 to some Cincinnati parties.

Virgil Scott and wife, of Mitchell, visited his parents here from Saturday until Tuesday.

James E. Pruitt and Clifford Brown, with their families, visited at Columbus Saturday and Sunday.

Rev. Weaver, of Freetown, preached his last sermon for this conference year at the M. E. church, Sunday.

John R. Lutes has sold his store to Henry Lutes, of Maumee. They invoiced the same Monday. Mr. John Lutes will move to Seymour and work in Hoadley's store.

The High School of Salt Creek township began Monday with the following teachers: Mrs. Geo. Gunder, of Brownstown; Mr. Ralph Goss, of Medora; and Miss Alice Brown of this place.

The preliminary institute was held here Monday evening with Supt. H. B. Henderson present. The following teachers have been placed by Trustee Davis: Brown's, Thos. E. Jones; Combs, Clifford Hill; Fleetwood's, Mrs. Louise Scott; Starnes, W. B. Scott; Cornett's, Emma Cross; Blind Horse, Ruth Marshall; Houston, Principal, Mrs. Goss; Grammar Department not supplied yet.

There will be an ice cream supper Thursday night at the K. of P. Hall given by the Pythian Sisters and Knights in honor of the returned soldiers, all of whom are invited to attend and also all Knights with their families.

Bradford Scott and wife went to Bedford Tuesday. The latter had her teeth extracted.

Mrs. A. J. Vincent of Jonesville, remains in a critical condition and very little hope is given for her recovery.—Columbus Ledger.

Accuracy in Prescriptions

A broader term than many suppose. Some people imagine it relates only to chemicals or preparations bearing the same name as that appearing on the prescription. This is one step only. To complete the sense of the term each ingredient must be pure—must be capable of exerting the highest medical effect. We believe in accuracy of this kind. It has given us the esteem of the physicians and the confidence of the public. Will take good care of your prescription. We don't charge extra for this carefulness.

"Mrs. Leffingwell's Boots"

It is one of the funniest stories ever written for the screen, concerning the trials and tribulations of a young wife who purchases what she believes to be the only existing pattern of a pair of slippers. However, there is one other pair in existence.

Mothers' Advice

The responsibility for a daughter's future largely rests with the mother. The right influence and the information which is of vital interest to the daughter imparted at the proper time has not only saved the life but insured the success of many a beautiful girl. When a girl's thoughts become sluggish with headaches, dizziness, or a disposition to sleep, pains in back or lower limbs and a desire for solitude, her mother should come to her aid and remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, will at this time prepare the system for the coming change and start this trying period in a young girl's life without pain or irregularities. Thousands of women residing in every part of the United States bear willing testimony to the wonderful virtues of this medicine, and what it has done for their daughters.

Brooklyn, N. Y.—"I cannot praise Lydia E. Pinkham's Vegetable Compound enough for what it has done for my daughter. She was 15 years of age, very sickly and pale and she had to stay home from school most of the time. She suffered agonies from backache and dizziness and was without appetite. For 3 months she was under the doctor's care and got no better, always complaining about her back and side aching so I did not know what to do. I read in the papers about your wonderful medicine so I made up my mind to try it. She has taken five bottles of Lydia E. Pinkham's Vegetable Compound and doesn't complain any more with her back and side aching. She has gained in weight and feels much better. I recommend Lydia E. Pinkham's Vegetable Compound to all mothers and daughters."—Mrs. M. F. FINE, 618 Marcy Avenue, Brooklyn, N. Y.

You Can't Cure Rheumatism With Liniments and Lotions

If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will? Do not try to rub the pain away, for you never will succeed. Try the sensible plan of finding the cause of the pain. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has no equal as a blood cleanser, scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system. Get a bottle of S. S. S. at your drug store and get on the right treatment to-day. If you want special medical advice, address Medical Director, 49 Swift Laboratory, Atlanta, Ga.

PAINT SPECIAL

A Good Quality Paint for \$2.50 per gallon. We have a limited quantity only of this paint in three colors—Gray, Red and Dark Green. This gives you an opportunity to buy paint at a moderate price for your roof and barn painting.

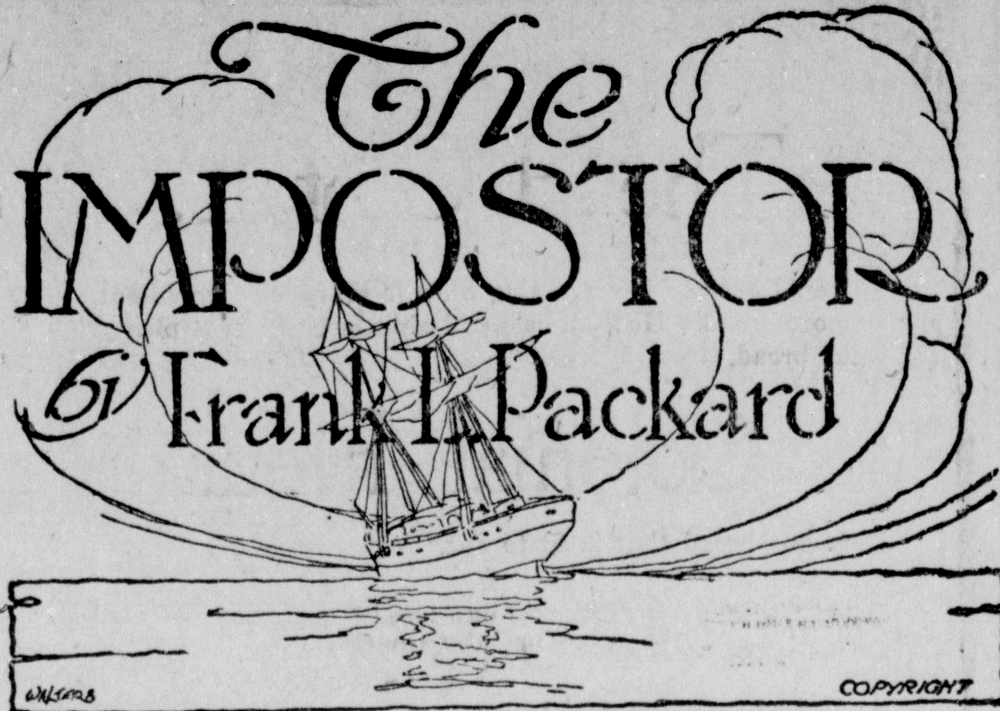

Now is the time to paint your roofs, so as to protect them during the winter months.

Don't overlook this offer, it is unusually good paint value for the price.

It was breaking day when Wallen finally gave up—gave up when will power, and the grit of the man that did not know defeat, no longer sufficed for the physical strength to go farther.

The Malay, regarding him anxiously, offered by signs to carry him on his back. Wallen, from where he had flung himself down upon the ground, half rose to accept the offer, then shook his head. It was no use attempting that; it was too far.

He was bitterly convinced that he had accomplished little more than half the distance.

But there must be some way out. He wasn't beaten yet. He had to catch that steamer.

Suddenly he looked up.

Big Lot of Hay Fever Jokes

But Kentucky Man Says—"People Who Belong to Hay Fever Colony are Kidding Themselves."

Wouldn't Be Any Rose or Hay Fever if Simple Home "emedy Was Given a Chance.

"Yes, there's a real NINETY-NINE per cent effective remedy for hay or rose fever," frankly states a druggist in a prosperous Kentucky city.

"But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

"The annual crop of hay-fever jokes would be mighty scarce if people would get an ounce of Mentholized Arcline and by just adding water that has been boiled make a pint of liquid that will prove a real help to all who suffer."

"Many of my hay-fever friends tell me that by starting to gargle and sniff or spray the nostrils a few times a day the expected severe attack often fails to appear and in cases where it does show up is very mild and does not annoy."

"The Better Class of Pharmacists" who dispense Mentholized Arcline say it will greatly modify any attack even when taken three or four days after hostilities begin.

Go to a real live druggist when you get ready to make a pint.

7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keep mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive, and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition. All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any drug—anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

Yes, of course. He had been a fool that he had not thought of it hours ago when he had first begun to realize that he was playing out, instead of it now when it might be too late, when the steamer might be already gone! He couldn't speak the Malay tongue, but MacKnight would have told the man why they were crossing the island. He could send the Malay on ahead, and follow himself as fast as he could.

If he could write a message he might even get them to send him help from Pobi.

He felt in his pockets. Nothing! Well, the Malay was an intelligent fellow; he would get word to the ship and a written message after all wouldn't make any difference—it all depended on the ship's skipper.

The skipper would wait, or he wouldn't, after hearing the Malay's story just as readily as he would for a written message. He began to make signs, pointing to the other, then in the direction of Pobi, then to himself, and then to the ground, indicating that he would stay behind.

"And hurry—quick—Pobi," Wallen ended anxiously.

The Malay nodded.

"Pobi—quick," he repeated—and started off at a run along the path.

Wallen watched the man disappear, and after a little while started on again himself—and then gave it up.

Half Rose to Accept the Offer, Then Shook His Head.

completely. He was down and out, and he was furiously angry with himself for the state he was in.

There wasn't anything to do but wait. He might make a mile before the Malay got back—but what good was that mile!

One thing was certain, any further exertion would bring serious consequences, if the serious consequences were not already an established fact. A tropical island was no health resort for a fever-shot body, and a relapse of the slow fever that had followed his recovery from yellow jack would be—he put it pitifully in his mind now—good night to Singapore and everything else!

He might as well admit it to himself—he wasn't fit to work his passage. He began to regret that he had not accepted MacKnight's offer of money. After all he could have paid it back to the trader by mail sooner or later.

But that was a vain regret! He hadn't taken the money—the thought that he would not be able to work his passage if necessary had never entered his head. And now, even suppose he reached the ship, would they take, not only a penniless passenger but a sick one as well?

He had no means of judging the time there in the forest, save that it grew hotter as the morning advanced, nor had he any idea how long it had been since the Malay had left him, when at last at the sound of voices he raised up suddenly, supporting himself with his back against the trunk of a tree.

Came then the pad-pad of horses' hoofs, and the Malay, running, burst into sight around the bend of the path a few yards away, while a girl's laugh rang out—and was instantly checked as she and a man riding beside her also came into view.

"Oh!" she cried. "There's someone here! That must have been what the native meant. And—and I think he's hurt. Quick, Mr. Mott!"

She had slipped from her saddle and was running toward him—a little figure in white, brown-haired, brown-eyed, whose face was now very anxiously puckered up in dismay and concern. Wallen wondered a little vaguely who these people could be, where the Malay had found them—and somehow he didn't like the man's face.

"Hello!" exclaimed the man. "What's wrong? Hurt?"

"No," said Wallen, a little weakly; "done up, I guess, that's all. Nothing serious. I— Could you tell me if that steamer that came into Pobi yesterday is still there? I overdid it a bit trying to get in from MacKnight's across the island in time to catch her."

"MacKnight's!" echoed the girl quickly. "Why, that's where we're going. Isn't it, Mr. Mott?"

"Yes," her companion answered, looking curiously at Wallen.

Then to Wallen: "We met this native fellow on the road, but couldn't make out what he wanted. He was going toward the town, but turned and came back with us, and kept running on ahead. You needn't worry about the steamer—we're from her ourselves. I'm second officer—but, I say, you're too seedy to stand up there and talk!"

Wallen was swaying unsteadily as he leaned against the tree.

"I'm all right," he said. "Just giddy for a moment. I'm—I'm rather anxious to make the ship."

"Well, there's no hurry now," Mott returned. "She won't sail without us. Look here! You've come from MacKnight's, you say. We heard at Pobi that there was a survivor from the bark Upolo there, and we were taking the ride over—Miss MacKay and I—to investigate. Is there any truth in the story?"

Wallen gasped. What interest could they have in the Upolo!

"A little," he said, with a faint smile. "Seeing that I'm the survivor."

"What!" ejaculated Mott. "The deuce you are! Well, then—excitedly—"can you tell us what became of Stacey Wallen, who was the first mate on her?"

Wallen laughed a little hysterically. "I am Stacey Wallen," he said.

There was a cry of amazed excitement from the girl. Mott, gazing in utter surprise at Wallen, tilted the vizor of his cap back and mopped mechanically at his forehead with a handkerchief.

Wallen's laugh died away, and he looked from one to the other anxiously.

"I—I don't understand, of course," he said. "But the point is, do you think your skipper will give me passage? I—I didn't save anything from the Upolo, and I was figuring on offering to work my way, but I'm afraid I'm hardly up to that for a spell."

"Could you ride a horse, d'ye think," inquired Mott with apparent irrelevancy, "if this Malay here and I held you on?"

"Yes," said Wallen eagerly. "Yes; but the skipper—"

"Oh, I guesses that'll be all right!" said Mott queerly. "As near as I can figure if you're the one on earth the skipper wants to see."

Each Man a Master—Each Tire a Masterpiece

You can pay less for tires—but Millers cost less per mile. That's because Millers are built by uniform workmen, trained to a championship standard. So Miller Tires mean no "second bests"—under like conditions they wear alike. And all are long-distance runners. These tires and our service are good associates. Comemake our acquaintance.

G. H. Anderson's Bulletin.

On September 12 I received a car load of Aviston flour out of hard wheat and guarantee every pound of it to be as good flour and as is on the market. Also have a full line of feed, hominy feed, cracked corn, feed meal, Schumacker hog feed, dairy feed and a full line of all kinds of feed. Owing to the break in corn, these feeds are getting down in price. You will find me in line with the market at all times on feed and grain. I am in the market at all times for wheat, corn, rye and oats at the market price.
G. H. Anderson, Phone 353. s12d&wtf

The photoplay, "The Heart of Humanity," will be shown at the Princess theatre in the near future as a Boy Scout benefit. The ticket sale will be placed in the hands of the Scouts and the various troops in the city will share in the proceeds. The matter has been taken up with the scoutmasters who have agreed to cooperate with the Princess management in the presentation of the picture on three consecutive days.

COUNCIL TO HOLD SPECIAL SESSION

(Continued from first page)

jected system will answer the present and future needs of the city. The cost of the proposed system is estimated from \$150,000 to \$200,000.

The council committee will likely recommend that the proposed ward sewers that have been under consideration for several weeks be postponed until the general sewerage plans are mapped out. A discussion of the system will continue during the fall and winter and it is considered likely that definite action may be taken early in the spring. The chamber of commerce is interested in an adequate sewerage system for Seymour and it was at the recommendation of this organization that the council is giving the matter serious attention.

As the projected system can only be paid for by a bond issue the matter of raising the necessary money must be taken into consideration by the committee. The matter, of course will have to go before the state tax board before the city of Seymour can assume an obligation of this size and it would not be surprising if the state board would order a referendum vote so the people could decide the matter by ballot. However, an improved sewerage system is thought to be favored by a great majority of the people for at present several sections of the city are without sanitary or cellar drainage. It is recognized that this handicaps permanent improvement in such sections of the city.

At the special meeting of the council tonight bids will be received for the improvement of what is known as the Hustedt alley in Block C, bounded by Second and Third streets and Indianapolis avenue and Ewing street. The council recently gave notice that this alley would be improved with concrete or some other hard surface material.

As the state tax board has not given a decision on the city's petition to issue bonds to the amount of \$10,000 to meet the cost of the proposed street lighting system on seven blocks in the city district, no further action can be taken by the council on that matter at this time. Several other matters of importance may be presented for the consideration of the councilmen at the meeting tonight.

Scrupulous cleanliness and obliging courtesy have worked wonders in this Service and Quality Meat Market. We sell the most choice, tender, luscious meats and time their delivery to match our promises.
